

Below are changes in our guidelines related to COVID-19 that impact Saint John's residents. We have been able to make these adjustments as a result of our vaccination rates and our overall success in managing care and services during the COVID Pandemic.

Effective May 12th:

- Interim Tower Visit Guidelines have been revised – children are now permitted to visit. Note all children over the age of 2 must wear a mask.
- Interim Care Neighborhood Guidelines have been revised – children are now permitted to visit. Note all children over the age of 2 must wear a mask.

We continue to gradually and cautiously re-open as we demonstrate we are able to do so safely.

We are not yet prepared to:

- Welcome Shore Holders to campus to use the LifeStreams gym and pools and attend programs.
- Permit guests to dine with residents, attend programs or enjoy public areas.
- Discontinue face coverings for large gatherings or in public areas.

We anticipate a number of changes in the coming weeks and appreciate your patience.
