

Windsor Neighborhood Quarantine

The Windsor Neighborhood continues under a precautionary quarantine through October 26, and thankfully no new cases have been identified through our additional testing. We continue to apologize for the hardship presented by the need to quarantine any group of residents. These safety measures are necessary to assure there has been no transmission of the virus on our campus.

Windsor residents may receive guests, but those visits must be scheduled in advance and occur in a special visitation area near Windsor.

Booster Shots

Yesterday, the FDA announced the approval for Moderna boosters (as well as Johnson & Johnson's). Considering this long-awaited news, we have reached out to Walgreen's – who conducted our initial vaccination clinics in January, February, and March – to make final plans for a campus-wide booster vaccination clinic. We expect to have plans set soon and will communicate them to all residents.

Visitors

As a reminder, all visits must occur only in resident apartments or in outdoor spaces, such as the Plaza. Visitors and guests may not accompany residents to events or use common areas, unless those events are held outdoors. Visitors may not partake in in-person dining in Taylor's, the Bistro, or the Care Neighborhood dining rooms. Please note visitors may pick up to-go meals from the Bistro; the restriction only applies to in-person dining. All visitors to Saint John's must be always masked and observe proper social distancing. We are discouraging residents from having large groups visiting in their apartments.

Visitors to Stratford and Canterbury must always wear a surgical mask and visit only outdoors or in resident rooms. To remain properly distanced in a resident room, we encourage limiting visitors to two at any time. Visitation to Windsor has resumed, but those visits must be scheduled in advance and occur in a special visitation area near Windsor.

Residents of Saint John's are welcome to attend LifeStreams events and gatherings in the Towers or Neighborhoods. Visitors who do not live at Saint Johns may not accompany residents to events. It is permissible for paid, medically necessary care providers (such as companions) to attend events with residents. However, we ask that those care providers either be vaccinated or submit to routine testing.

Visitors in Guest Apartments

As the window project comes to a close, the Guest Apartments will soon reopen for use by your visitors. Current visitor restrictions will also apply to visitors temporarily residing in Guest Apartments. Notably, these overnight guests will still not be able to participate in events, activities, or in-person dining.

Questions?

The weekly COVID Updates are produced by Saint John's COVID Response Team. If you have a question for the team, please contact Matt Loyd, COO, at (414) 831 – 6953 or mloyd@saintjohnsmilw.org.
