

Windsor Neighborhood Quarantine

The Windsor Neighborhood's quarantine has been lifted. No additional cases were identified throughout the two-week period. Visitation to the Neighborhood has resumed with the same visitor guidelines used throughout the campus (see below).

Booster Shots

We have been in communication with Walgreen's to schedule Moderna booster shot clinics, but do not yet have details to share. We expect to have plans set soon and will communicate them to all residents.

Visitors

As a reminder, all visits must occur only in resident apartments or in outdoor spaces, such as the Plaza. Visitors and guests may not accompany residents to events or use common areas, unless those events are held outdoors. Visitors may not partake in in-person dining in Taylor's, the Bistro, or the Care Neighborhood dining rooms. Please note visitors may pick up to-go meals from the Bistro; the restriction only applies to in-person dining. All visitors to Saint John's must be always masked and observe proper social distancing. We are discouraging residents from having large groups visiting in their apartments.

Visitors to Stratford, Canterbury, and Windsor must always wear a surgical mask and visit only outdoors or in resident rooms. To remain properly distanced in a resident room, we encourage limiting visitors to two at any time.

Residents of Saint John's are welcome to attend LifeStreams events and gatherings in the Towers or Neighborhoods. Visitors who do not live at Saint Johns may not accompany residents to events. It is permissible for paid, medically necessary care providers (such as companions) to attend events with residents. However, we ask that those care providers either be vaccinated or submit to routine testing.

Visitors in Guest Apartments

Guest Apartments will soon reopen for use. Proof of vaccination will be required at the time of reservation. Current visitor restrictions will also apply to visitors temporarily residing in Guest Apartments.

Holiday Season Planning

We are hopeful to relax visitor and guest restrictions as soon as pandemic activity allows. Milwaukee County remains at a "High" level of risk, but indicators are improving. Due to the need to plan events weeks in advance, we are proceeding with the presumption that visitors and guests will still not be allowed to attend our holiday-season events. In other words, should pandemic activity allow for a relaxation of restrictions in the coming weeks, we will relax those restrictions – but plans will already have been set for the holiday parties and guests will not be able to attend those events. Please consider this as you make your personal plans to celebrate the holidays.

Questions?

The weekly COVID Updates are produced by Saint John's COVID Response Team. If you have a question for the team, please contact Matt Loyd, COO, at (414) 831 – 6953 or mloyd@saintjohnsmilw.org.
