

COVID Update – Booster Shot Clinic Edition

December 13, 2021

The Walgreen's Booster Shot clinic will be held in the Saint John's Community Room (North Tower, second floor) on Wednesday, December 15, 2021. Vaccinations will be scheduled in 15-minute increments beginning at 9:00am.

If you have already reserved your time, you should have received instructions and your appointment time last Thursday evening. Spots are still available, please call Christina Cordero in the Wellness Clinic (414-831-6876) to reserve your time or if you have questions.

On the day of the Clinic:

- **Please remember to bring your insurance card and your COVID vaccination card.**
(A Walgreens clinic team member will update your existing vaccination card. If you do not have your card, an additional card will be provided with only the booster dose information on it.)
- Upon arrival you will be given your pre-filled-out paperwork.
- During check-in, you will review and verify information on your paperwork, sign your consent and be screened for signs of illness. **Immunization will be deferred if participants are sick or have a fever.**
- Wear a face mask/face covering and observe social distancing.
- Wear clothing that will allow access to your upper arm near the shoulder for ease of injection.
- There will be a post vaccination monitoring period of up to 30 minutes. Most will be 15 minutes; the duration of the waiting period is at the discretion of the Pharmacist.

If you have received the booster elsewhere, we kindly request that you share a copy of your booster record with us. Copies can be given to Christina Cordero in the Wellness Clinic.

Please do not to attend the booster clinic if you are sick, have symptoms of a respiratory illness, or if you have been diagnosed with COVID within the 14 days prior to the clinic. Common symptoms:

- | | | |
|---|------------------------------|----------------------------|
| ▪ Fever or chills | ▪ Muscle or body aches | ▪ Congestion or runny nose |
| ▪ Cough | ▪ Headache | ▪ Nausea or vomiting |
| ▪ Shortness of breath or difficulty breathing | ▪ New loss of taste or smell | ▪ Diarrhea |
| ▪ Fatigue | ▪ Sore throat | |

PLEASE REMEMBER: SAINT JOHN'S IS RECOMMENDING ALL RESIDENTS WEAR MASKS WHILE INDOORS IN PUBLIC AREAS

Questions?

The weekly COVID Updates are produced by Saint John's COVID Response Team. If you have a question for the team, please contact Matt Loyd, COO, at (414) 831 – 6953 or mloyd@saintjohnsmilw.org

With the holiday season upon us and the blessing of additional visitors, please be sure you are monitoring yourself for symptoms of illness and remind visitors to suspend visiting if they have symptoms.
